ABOUT ME

I have completed my Bachelor's Degree in Science, applied mathematics. However, I am interested in computer programs and have advanced computer programming and software skills. Moreover, I am a hard-working and enthusiastic person with ability to learn the new things and concepts quickly. Also, I am competent in analytical and problem-solving skills with ability to work under high pressure conditions. Seeking a responsible and challenging job in progressive organization where my sufficient knowledge and abilities will be appropriately utilized.
